Professional Summary

Results-driven Web Developer with hands-on experience in WordPress and practical project experience in the MERN stack — React.js, Next.js, Node.js, Express.js, and MongoDB. Contributed to internal and freelance React-based UI improvements and dashboards while delivering multiple responsive websites using WordPress and modern JavaScript frameworks. Skilled in API integration, performance optimization, and user experience enhancement.

Core Skills

- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
 - Frontend: React.js, Next.js, Redux, Context API, Tailwind CSS
 - Backend: Node.js, Express.js, RESTful APIs
 - Databases: MongoDB, Mongoose, MySQL (basic)
 - CMS: WordPress (Elementor, theme/plugin customization)
 - Version Control & DevOps: Git, GitHub, CI/CD (GitHub Actions), VPS (Linux), AWS EC2 (basic)
 - Tools: Figma, Postman
 - Soft Skills: Communication, Collaboration, Time Management
-

Professional Experience

Web Developer — Dsquare Marketing | Oct 2023 – Present

- Developed responsive WordPress websites using Elementor and JavaScript.
- Collaborated with the co-founder (developer) on freelance and internal projects using React for UI enhancements and dashboard components.
- Handled website hosting, maintenance, and updates, working on both front-end and back-end improvements based on project requirements.
- Optimized site performance by 20% and ensured SEO best practices.

[Web Development Intern \(WordPress\) — Dsquare Marketing](#) | Apr 2023 – Oct 2023

- Customized Elementor designs and integrated plugins for client projects.

- Supported development of internal tools using React and REST API integration.
- Assisted with debugging, responsive design, and layout improvements.

[Full Stack Development Internship Program — Edureka](#) | May 2023

- Delivered MERN stack projects using React, Node.js, Express.js, and MongoDB.
 - Implemented authentication, API routing, and RESTful architecture.
-

React & MERN Projects

Reddit Application – [Live Demo](#)

- React TypeScript app fetching posts from the ReactJS subreddit via Reddit API.
- Implemented dark mode and responsive design for optimal user experience.

URL Shortener – [Live Demo](#)

- Built with Express.js, MongoDB, and Tailwind CSS; supports SSR and user authentication.
- Used secure cookies so users can access only their own URLs.

IMDB Clone – [Live Demo](#)

- Next.js app integrating TMDB API for movie data and details.
 - Optimized with server-side rendering for faster load times.
-

Education

- MBA in Systems and IT — Osmania University | First Class with Distinction
 - B.Com (Computers) — Osmania University | GPA: 7.9
